THE 2020 CLS

For the looks it's got, and the looks you'll get.

The way its sharknose grille, twin-power-dome hood, and tense arch of a roofline come together, it's understandable if you're won over purely by the design of the third-generation CLS. The four-door coupe profile it pioneered has inspired an entire industry. But just as compelling are the innovations that await you beneath its alluring sheet metal: Advanced luxuries. Breakthrough driving assists. And next-generation electrified performance. What does it feel like to take the wheel of a CLS in your own hands? Exactly what everyone else imagines just by looking at it.

CLS 450 4MATIC COUPE

—
362-hp inline-6 turbo engine
with EQ Boost electrification
4MATIC® all-wheel drive
Obsidian Black metallic
19" twin-multispoke wheels

KEY FEATURES

PERFORMANCE

Inline-6 turbo or AMG-enhanced inline-6 turbo engine, both with electric EQ Boost Integrated Starter-Generator (ISG)

9G-TRONIC or AMG SPEEDSHIFT® TCT 9-speed transmission, both with shift paddles

DYNAMIC SELECT drive modes

Rear-wheel drive, 4MATIC® all-wheel drive, or AMG Performance 4MATIC+*

4-wheel independent suspension: Lowered with selective damping or AIR BODY CONTROL* (CLS 450), or AMG Sport Suspension based on AIR BODY CONTROL with 3-stage adaptive damping (CLS 53)

ECO Start/Stop system

DESIGN

19" or 20" alloy wheels*¹

3rd-generation 4-door coupe design

New *designo*® *Manufaktur* paint options, from classic nonmetallics to modern matte finishes* (CLS 450)

LED headlamps and taillamps, LED Intelligent Light System*

64-color LED ambient lighting

AMG Line or Night Package (CLS 450); or AMG Night Package and Exterior Carbon Fiber Package (CLS 53) styling options*

A selection of fine cabin trims from high-gloss and natural grain woods to AMG carbon fiber*

SAFETY

Intelligent Drive* driver assistance suite, including Active Distance Assist DISTRONIC®, Active Brake Assist with Cross-Traffic Function, Active Lane Change Assist, Active Speed Limit Assist, PRE-SAFE® PLUS rear collision preparation, and PRE-SAFE Impulse Side

Rearview camera, or multicamera Surround View System*

Car-to-X Communication

Radar-based Active Brake Assist collision mitigation, Blind Spot Assist, PRE-SAFE® Sound hearing protection technology, and ATTENTION ASSIST®

Mercedes-Benz Emergency Call

LUXURY

Power front seats with memory, 40/20/40-split folding 3-passenger rear seat

Heated, ventilated, and massaging front seats with active side support*

ENERGIZING Comfort orchestrates sound, lighting, fragrance, seating and climate comfort features*

Dual-zone or 3-zone* climate control with dust and odor filters

KEYLESS-GO® with hands-free power trunklid

Burmester® or Burmester High-End 3D surround sound system*

Leather, MB-Tex/DINAMICA, Nappa or *designo* Nappa leather upholstery*

TECHNOLOGY

COMAND® system with navigation and 12.3" central multimedia display

Apple CarPlay™ and Android Auto

12.3" digital instrument cluster,* Head-Up Display*

Touch Control Buttons on steering wheel, and touchpad in console

AMG DRIVE UNIT performance controls with color displays on steering wheel (CLS 53)*

Wireless phone charging*

Mercedes me connect featuring smartphone app with Remote Start, 4G LTE WiFi,* and more²

Hands-free Active Parking Assist*

*Optional or not available on some models. Please see back of brochure.

Its pure coupe profile traces a taut line from its forward-leaning grille to its LED taillamps. Its performance history traces a line from history's first auto race to a new era of electrified power.

THE SENSIBLE SIDE OF **SENSUAL**

Athletic, alluring and ageless

The original CLS opened a new era in the rich tradition of Mercedes-Benz coupes. For the first time, the seductively sleek styling and richly refined cabin were united with the convenience of four doors. It turned the tide of car design, as countless sedans emulated its sweeping shape. For its third generation, the CLS has broken free from the crowd again, with lines that are clean, flowing and pure.

Eager to perform, refuses to conform

Beneath its taut, muscular body is an agile chassis and another advance on a classic Mercedes-Benz element: The inherently smooth inline-6 is turbocharged and teamed with innovative EQ Boost that can add seamless, efficient torque electrically. In the Mercedes-Benz coupe tradition, the CLS honors its history by continuing to make it new.

A MODERN TWIST ON

TORQUE

A new trajectory for the traditional inline-6

For generations, the natural balance of an inline-6 engine made it a beloved powerplant for German performance coupes. The CLS reinvents this classic configuration in futuristic form. Its 100% beltless, low-friction design is light and compact. A twin-scroll turbo helps it outpunch its 3.0L size in power and torque. And its 48-volt electrical system efficiently charges its lithium-ion battery, and runs its air conditioning and power steering. It also powers its EQ Boost Integrated Starter-Generator (ISG)—an innovation that can add instant, gas-free torque on demand, and make its emission-cutting, fuel-saving ECO Start/Stop system feel even smoother.

Performance highlights

362-hp inline-6 turbo or AMG-enhanced 429-hp inline-6 turbo engine, both with EQ Boost Integrated Starter-Generator

9G-TRONIC or AMG SPEEDSHIFT® TCT 9-speed transmission with shift paddles

Rear-wheel drive, 4MATIC® all-wheel drive, or AMG Performance 4MATIC+

Lowered suspension with selective damping, 4-wheel self-leveling AIR BODY CONTROL,* or AMG Sport Suspension based on AIR BODY CONTROL

DYNAMIC SELECT drive modes

The Integrated Starter-Generator can add up to 21 hp and a seamless swell of torque. It can also allow fuel-free coasting, and recapture energy during deceleration.

*Optional or not available on some models. Please see back of brochure.

THOUGHTFUL AND **SOULFUL**

Every surface reveals what's within

The CLS cabin is an experience that's at once singular and shared. The flowing sculpture of its dash, doors and console envelops you in visible artfulness and tangible craftsmanship—both Mercedes-Benz coupe signatures. Contoured seating invites five adults to enjoy it as one.

Every sense deserves a sensation

Concealed amid the fine woods and supple leather are technologies to help you feel both relaxed and refreshed. LED ambient lighting offers 64 selectable colors. Options include front-seat "hot stone" massage and ENERGIZING Comfort, which creates multisensory environments with lighting, seat comfort, climate, subtle aroma and music.

The design of a CLS doesn't start with a sketch or spreadsheet. It starts with a legacy of elegance that's continually racing ahead. It starts with a soul.

Luxury highlights

- Power front seats with memory
- Heated, ventilated and multicontour front seats with massage,* heated steering wheel* and front armrests*
- 64-color/multizone ambient lighting
- Dual-zone (or 3-zone*) climate control with dust/pollen/odor filters
- ENERGIZING Comfort with cabin-air ionizer and fragrance atomizer*
- KEYLESS-GO® and electronic trunk opener with HANDS-FREE ACCESS
- Soft-close doors*

*Optional on some models.
Please see back of brochure.

SAFETY IS THE ULTIMATE COMFORT

A multitude of sensors, a singular focus

A network of radar, cameras and other sensors watches for danger. Car-to-X Communication³ lets your CLS and other cars with the system alert each other to hazards ahead. If PRE-SAFE[®] Sound senses an imminent crash, a special tone can prepare your ears' natural defenses.⁴

Proactive protection, advanced action

An available suite of driver assists⁵ lets you change lanes with a tap of a turn signal. It uses GPS to help the cruise control slow for tolls or exits. It can adjust your cruising speed as the posted limit changes. It can also help you execute an evasive move more smoothly, and proactively prepare for an impending front, rear or side impact.

Safety highlights

Radar-based Active Brake Assist⁶ frontal collision mitigation, PRE-SAFE[®] with hearing protection technology

Blind Spot Assist⁷; rearview camera or multi-camera Surround View System^{*8}

Driver Assistance Package* with Active Distance Assist DISTRONIC[®] cruise control; Route-based Speed Adaptation; Evasive Steering Assist; PRE-SAFE Impulse Side; Active Blind Spot, Emergency Stop, Lane Change, Lane Keeping, Speed Limit and Steering Assists; and more

For decades, Mercedes-Benz engineers have been peering into the future—far off and milliseconds ahead—to pioneer new ways to help look out for yours.

A HIGHER DEFINITION OF CLARITY

Highly informative, wholly intuitive

A rotary/touchpad controller on the console and Touch Control Buttons on the steering wheel team with vivid in-dash displays to offer intuitive access to information, entertainment, and feature settings. You can also control a wide array of cockpit features—from navigation⁹ to audio to turning on seat options—with your voice.

Illuminating visuals, immersive audio

A 12.3" reconfigurable digital instrument cluster* can pair with the standard 12.3" central multimedia screen. Two surround sound options—13-speaker all-digital, or a digital/analog 25-speaker High-End 3D system—have been developed by Germany's renowned Burmester.[®]

Panoramic displays, touch-swipe controls, voice-operated cabin features, and digital audio meld high tech with human nature.

Technology highlights

COMAND[®] with navigation, 12.3" display, touchpad controller, and steering-wheel Touch Controls

12.3" digital instrument cluster,* Head-Up Display*¹⁰

Apple CarPlay[™] and Android Auto,¹¹ wireless charging*

HD Radio[™] stations, Bluetooth[®] audio streaming, SiriusXM[®] All-Access,*¹² in-car WiFi* with TuneIn Radio^{®2}

Burmester Surround Sound System,* or 1,450-watt Burmester High-End 3D Surround Sound System*

*Optional on some models. Please see back of brochure.

OPTION PACKAGES

EXTERIOR LIGHTING PACKAGE

Intelligent Light System with
Ultra Wide Beam headlamps
Signature LED Daytime Running Lamps
Adaptive Highbeam Assist

CLS 450 STYLING PACKAGES

Carbon fiber rear spoiler

Bring your dream to your driveway

Even with an abundance of standard features, a menu of enticing options lets you create a CLS that's a perfect fit for your life and your style. Thoughtfully curated option packages—like the selection shown here—make it easy to add the most popular features, or group features that perform, or look, even better in concert than they would individually. There's also a wide selection of individual options and Genuine Mercedes-Benz Accessories that help you take the 4-door coupe that's in your dreams and put it in your driveway.

Package contents and standard equipment vary by model. Turn to page 25 or visit MBUSA.com/CLS for details.

Other packages and options

Parking Assistance Package
Driver Assistance Package
Premium Package
Warmth & Comfort Package
ENERGIZING Comfort Package
AIR BODY CONTROL adaptive air suspension
Burmester® High-End 3D Surround Sound system
3-zone climate control
Ventilated and/or massaging front seats
Soft-close doors
Illuminated door sills
designo® Manufaktur paint and leather (CLS 450)
AMG Performance steering wheels (CLS 53)
AMG DRIVE UNIT (CLS 53)
AMG Performance Exhaust System (CLS 53)

*From fashionable to functional,
there are countless ways to create
a CLS that's tailored to suit you.
And with numerous reconfigurable
features, you can adapt your CLS
to suit your mood, or set a new one.*

Please see endnotes at back of brochure.

CLS 450 COUPE

—
362-hp inline-6 turbo engine
with EQ Boost electrification

designo Selenite Grey Magno
Night Package

20" AMG® multispoke wheels

The elegance of quiet eloquence

In an era where so many cars cloy for your attention with countless creases and cuts, the CLS speaks its design language with a commanding whisper. With a slight forward lean to its grille, wind-honed AMG® styling and wide LED taillamps, the clean, minimal lines of the CLS shun fussy clichés for true finesse.

Depth of character on every surface

Exquisite craftsmanship has long underpinned the visible style of Mercedes-Benz coupes. Hand-fitted leather or Nappa leather* in three styles and a range of colors can be paired with any of five woods—light or dark, satin natural-grain or deeply polished. The paintwork palette adds eight *designo Manufaktur* colors* from classic nonmetallics to modern mattes.

Efficiency raised to a higher power

The advanced gas/electric powertrain supplements the turbocharged 362-hp inline-6 with the added gas-free torque of an EQ Boost Integrated Starter-Generator. Power is sent to the rear wheels, or via 4MATIC® all-wheel drive to all four 19" to 20" tires.¹

Responsive to demands and desires

Even the luxury details of the CLS have thoughtful details: Tap the climate control temperature up or down, and the ambient lighting acknowledges your command with a brief flash of red or blue. You can also adjust it, along with countless cabin features from audio to navigation, via standard voice control.

With a design that's refreshingly free of extraneous flourish, the CLS proves that understatement can be emphatic. In the CLS tradition, expect the world to listen up.

ONLY ONE WORK OF ART CAN BE THE ORIGINAL

The CLS 450 and CLS 450 4MATIC Coupes

The four-door coupe silhouette of the first CLS ushered in a new era of car design. And while it drove sleeker, more rakish shapes into the norm, the CLS remains out of the ordinary. Its design and engineering collaborate to offer a range of delights to its driver and four passengers—all while it draws admiring eyes wherever it goes. To be a Mercedes-Benz, the CLS must be more than a work of art. It has to work just as artfully—teaming power with poise. Asserting leadership with grace. And turning an object into an object of instant desire and enduring affection.

As appealing as either CLS450 is at a standstill, taking them to an open road proves that style starts in the soul. Torque flows liberally from the turbo engine and electric EQ Boost. Handling is at once crisp and fluid: Selective damping instantly firms up in tight turns. Available AIR BODY CONTROL® pairs adaptive damping with 4-wheel leveling. The CLS450 4MATIC delivers all-season agility with a 30-mpg highway rating.¹³ And the AMG Line and Night Package sharpen looks and handling, with 19" or 20" AMG® wheels,¹ plus sporty details inside and out.*

*Optional. Please see back of brochure.

DRIVING PERFORMANCE

BLAST FROM THE FUTURE

The triple-boosted AMG CLS 53 Coupe

It's tempting to just say the AMG CLS 53 distills more than half a century of racing championships into a 4.4-second 0-60 run.¹⁴ But it takes far more to create a new era of performance car. Its AMG-enhanced inline-6 pumps up its torque in three different ways: a twin-scroll turbo, a 48-volt EQ Boost Integrated Starter-Generator, and an electric auxiliary compressor. It can divide that torque 50/50 front/rear, or send up to 100% to the rear set of 19" or 20" AMG® wheels. And its air suspension can rapidly adapt to curving roads and any of five selectable driving modes.

AMG highlights

429-hp AMG-enhanced 3.0L inline-6 turbo engine with EQ Boost Integrated Starter-Generator (ISG) and electric auxiliary compressor

AMG SPEEDSHIFT® TCT 9-speed, AMG DYNAMIC SELECT drive modes

AMG Performance 4MATIC+ all-wheel drive with variable torque distribution

AMG Sport Suspension based on AIR BODY CONTROL with 3-stage damping

AMG Performance steering wheels, with AMG DRIVE UNIT controls*

The newest generation of Formula 1® championship-winning Mercedes-AMG Petronas Motorsports racecars is electrified. So is a new generation of AMG performance for the street.

*Optional. Please see back of brochure.

THE DIFFERENCE IS IN EVERY

EXPERIENCE

The moment you take delivery of your new Mercedes-Benz, it starts to deliver for you. The joys of driving are engineered to excite and endure. Its progressive technology is designed to keep you connected now, and at the forefront of a changing world. And the people who stand behind your Mercedes-Benz are devoted to earning their Star, and your trust.

Daily commute or roadtrip, thoughtful technology helps make any journey a joy.

Mercedes me connect puts a network of features in your car, on your smartphone, and in the digital world around you.² And all of them collaborate to help keep you on track, on time, and feeling you're on top of your real world.

- You can remote-start your car, locate where it's parked, configure vehicle settings from your phone, and more.
- You can look up destinations on your phone and send them to the COMAND® navigation system in your car.
- You can offer WiFi to your passengers, and enjoy audio from all over the planet with TuneIn Radio.

Models with Car-to-X Communication can share info on traffic, road hazards and other conditions with each other, via a central reporting base. So you might find out about a tie-up on your route before you get caught up in it.

Your car's navigation map database can be updated in your driveway, over the air, up to twice a year for three years. There's no need to bring it to the dealership.

Wherever you drive, there's a team of supportive people looking out for you.

Mercedes-Benz was the first automaker to introduce its own **Roadside Assistance Program** in the US. For more than 35 years, customers have called on—and counted on—factory-trained experts in times of need.²⁹

- A button in your car can connect you. If an air bag or seat-belt tensioner is activated, your car can place the call on your behalf, and even transmit your location.
- They can send help—usually a trained dealer service technician—to your location, even for a jump-start.
- If you see a warning light, so can the experts, and they can often help diagnose trouble over the phone.

Mercedes me Concierge can fulfill a range of requests like hotel and restaurant reservations for a monthly fee.

- They can look up a destination or point of interest for you, then download it right to your car's navigation.
- They can give turn-by-turn directions as you drive.

Committed to Community

Mercedes-Benz USA is committed to educating and empowering the next generation of diverse leaders. To help equip them with the tools for success, MBUSA partners with two national organizations that invest in the futures of young people in communities across the country. As a Mercedes-Benz driver, you become a part of this effort to give hundreds of thousands of youth a better life today, and all of us a brighter tomorrow. *Learn more about how Mercedes-Benz USA gives back at MBUSA.com/community*

A nationwide network of youth sports programs, Laureus Sport for Good USA is focused on improving the health, education, employment and social cohesion of youth in underserved communities. Since 2012, Laureus USA has helped nearly half a million young people in 150 cities. *To learn more, visit laureususa.com*

Your Mercedes-Benz experience should always feel special.

Driving a Mercedes-Benz feels like joining a club, as well as a family. Wherever you go, you're part of a history that started with the first car, and always keeps racing ahead.

- For decades, groundbreaking innovations have protected, entertained and indulged Mercedes-Benz drivers first. While many have gone on to become the standard for all cars, you get to drive the future, today.
- From the AMG Lounge to #MBPhotoPass on Instagram, Mercedes-Benz owners have many ways to connect and interact.

Your car and your dealer are in on it, too.

- *Mercedes me* lets your car communicate its service needs to your preferred dealer.
- Your dealer can reach out to you to book an appointment or offer drive-in service.

JOHNNY MAC SOLDIERS FUND

Johnny Mac Soldiers Fund helps honor military service and sacrifice by providing scholarships to veterans and military family members—particularly the children of our nation's fallen and disabled. Since 2014, Johnny Mac has awarded \$12 million in scholarships to more than 1,000 students. *To learn more, visit johnnymac.org*

ENDNOTES

- * Item is optional or not available on some models. See Packages and Options listing in this brochure or visit MBUSA.com for more information.
- 1 Lower-aspect-ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions.
- 2 All *Mercedes me* services operate only where cellular and GPS signals are available, which are provided by third parties and not within the control of Mercedes-Benz USA, LLC. *Mercedes me connect assist* services, and 3 years of *Mercedes me connect* services are included at no additional charge with new-vehicle sales and leases at an authorized Mercedes-Benz dealer. Models with COMAND navigation also include 3 years of over-the-air map updates, 3 years of live traffic information provided by TomTom,® 1 year of Concierge Service, and a 1-month trial (up to 1GB) of in-vehicle WiFi and streaming audio. Subscriber Agreement is required for service to be active. Some services are only available on select vehicles. Your PIN is required to use certain services. Connection may be limited by cellular signal and other factors. Features may be introduced and updated at varying dates, and may also require a vehicle software update. Some services may be limited or restricted in some areas. Driver is responsible for complying with traffic and other laws. The *Mercedes me connect* Mobile App is compatible with Apple iPhone® models and Android-based phones, and may require a software update. See your dealer or MBUSA.com/mercedesme for details.
- 3 Car-to-X services are activated as part of *Mercedes me connect*. Connected services operate only where cellular and GPS satellite signals are available, which are provided by third parties and not within the control of Mercedes-Benz USA, LLC. See your dealer or MBUSA.com/mercedesme for details.
- 4 Audio/multimedia system must be turned on for PRE-SAFE Sound to operate.
- 5 Even the most advanced safety systems may not be sufficient to avoid an accident. Please refer to more detailed information on specific systems elsewhere in this brochure, at MBUSA.com, and in the vehicle's Operator's Manual. Some systems may be optional.
- 6 Active Brake Assist may not be sufficient to avoid an accident. It does not react to certain stationary or suddenly moving objects or pedestrians, may not react in certain situations where objects cannot be clearly identified, nor does it recognize or predict the curvature and/or lane layout of the road or every movement of vehicles and pedestrians ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. See Operator's Manual for system operating speeds and additional information and warnings.
- 7 Blind Spot Assist is a warning system only. Blind Spot Assist or Active Blind Spot Assist may not be sufficient to avoid all accidents involving vehicles in your blind spot and does not estimate the speed of approaching vehicles. It must not be used as a substitute for driver awareness and checking of surrounding traffic conditions. See Operator's Manual for system's operating speeds and additional information and warnings.
- 8 Rearview camera and Surround View System do not audibly notify driver of nearby objects and are not a substitute for actively checking around the vehicle for any obstacles or people. Images displayed may be limited by camera field of view, weather, lighting conditions and the presence of dirt, ice or snow on the cameras.
- 9 While the navigation system provides directional assistance, the driver must remain focused on safe driving behavior, including paying attention to traffic and street signs. The driver should utilize the system's audio cues while driving and should only consult the map or visual displays once the vehicle has been stopped in a safe place. Maps do not cover all areas or all routes within an area, may require periodic updating, and may not reflect recent or temporary changes to roadways.
- 10 Display may not be visible with certain eyewear, including polarized glasses.
- 11 Apple CarPlay™ is a product of Apple Inc. Android Auto is a product of Google Inc. Content and app providers' terms and privacy statements apply. Requires connected compatible device and data plan. Apps, content and features are selected solely by their providers. Connection to apps and streaming services may be limited by the device's network connection. Data usage is routed through device and subject to fees, charges and restrictions in user's wireless plan. Vehicle's factory audio/information interface may not be used simultaneously with Apple CarPlay or Android Auto. When Apple CarPlay or Android Auto is in use, the steering-wheel voice control button accesses Siri® or Google voice recognition software for voice commands.
- 12 The purchase of a new, SiriusXM®-equipped vehicle includes a 6-month introductory subscription to the SiriusXM All Access package. If you decide to continue your subscription after your trial, the plan you choose will automatically renew and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at siriusxm.com. All fees and programming subject to change.
- 13 2020 EPA estimated fuel economy. Compare the estimated mpg to the estimated mpg of other vehicles. You may get different mileage depending on how fast you drive, weather conditions and trip length.
- 14 Stated rates of acceleration are estimated based upon manufacturer's track results and may vary depending on model, environmental and road surface conditions, driving style, elevation and vehicle load.
- 15 Driving while drowsy or distracted is dangerous and must be avoided. ATTENTION ASSIST™ is a warning system only. ATTENTION ASSIST and Active Lane Keeping Assist may be insufficient to alert a fatigued or distracted driver of lane drift and cannot be relied on to avoid an accident or serious injury. See Operator's Manual for system's operating speeds and additional information and warnings.
- 16 Parking assistance systems are not substitutes for driver attention to the immediate surroundings, as well as any people, animals or vehicles in or approaching the vehicle's maneuvering range. System cannot determine if a space is legally available or of a suitable surface for parking. See Operator's Manual for additional information, tips and warnings.
- 17 Unsecured cargo can become hazardous in a collision. Always secure cargo using the floor-mounted tie-downs.
- 18 Sport steering wheel is included on CLS450 in AMG Line only with Black interiors, or with *designo* Black/Titanium Grey Pearl leather, and excluded if heated steering wheel is also ordered. Heated steering wheel is not available on AMG CLS53 with AMG DRIVE UNIT or AMG Performance steering wheel in DINAMICA.
- 19 Wireless charging and NFC pairing available only for devices with compatible technology and size. See Operator's Manual for more information. Devices sold separately.
- 20 Active Distance Assist DISTRONIC® cruise control is not a substitute for active driving involvement. It does not adapt cruising speed in response to stationary objects, nor does it predict the curvature and lane layout of the road ahead or the movement of vehicles ahead. Active Steering Assist requires driver to hold steering wheel and be ready to steer vehicle at any time. It may not recognize lane markings in some lighting, weather and road conditions. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. Even with Route-based Speed Adaptation, driver is responsible for safely slowing and/or stopping vehicle at intersections, and for giving right-of-way to other drivers. System is not a substitute for driver awareness to posted speed limits and other conditions. Driver is responsible for safely operating vehicle in accordance with local traffic laws and driving conditions.
- 21 Active Lane Change Assist is not a substitute for active driving involvement. It estimates but does not predict the curvature and lane layout of the road ahead or the movement of vehicles ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the driving inputs necessary to retain control of the vehicle. System may not detect some objects, obstacles or vehicles in the area into which the vehicle would move. See Operator's Manual for system operating speeds and additional information and warnings.
- 22 Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. Braking effectiveness also depends on proper brake maintenance, and tire and road conditions. See Operator's Manual for system operating speeds and additional information and warnings.
- 23 No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Driver's deliberate steering inputs are required to initiate the system's action, and can override its intervention at any time. See Operator's Manual for system operating speeds and additional information and warnings.
- 24 System cannot prevent a collision, and does not alert the driver of an impending collision or system activation. It does not intervene if vehicle is backing up, and does not apply the brakes if the driver is accelerating or if Active Parking Assist is operating. When PRE-SAFE closes the side windows, a small gap is left near the fully closed position.
- 25 AMG DRIVE UNIT is not available with heated steering wheel, nor with Macchiatto Beige/Magma Grey, Magma Grey/Espresso Brown or *designo* Macchiatto Beige/Titan Red Pearl leather.
- 26 AMG Performance steering wheel in DINAMICA requires AMG DRIVE UNIT.
- 27 *designo* leathers include coordinated DINAMICA headliner, and replace black headliner in AMG Line if ordered together on CLS450. *designo* leathers also include *designo* floor mats, plus topstitched *designo* Nappa leather on dash, console and doors. On CLS450, *designo* Black/Titanium Grey Pearl leather also includes sport steering wheel, except with heated steering wheel. On AMG CLS53, *designo* Macchiatto Beige/Titan Red leather requires AMG Performance steering wheel in Nappa leather.
- 28 Availability may be delayed. Please see your dealer.
- 29 Roadside Assistance repairs may involve charges for parts, service and towing. Vehicle must be accessible from main roads. Depending on the circumstance, these services may be provided by an outside provider, courtesy of Mercedes-Benz Roadside Assistance. Restricted roadways, acts of nature and vehicle accessibility may limit our ability to provide services to you. For full details, eligibility requirements, and limitations/exclusions of Sign and Drive services, as well as the Roadside Assistance Program, please see your dealer.
